

Finance and HR

The Finance Department here at NHA manages the accounting, finance, and HR functions. Our back office functions keep the deposits deposited, the checks written, journal entries recorded, proper cost allocations between programs, staff payroll processed, and property construction books maintained and ready for audit. We get to work closely with all of the departments at NHA.

We focus on good reporting of the past to enable management to see into the future and predict future trends. A robust cash projection is one of our primary tools.

Finance

In 2018, we processed invoices for **23** companies.
